Funding Source Not Displayed on Vaccine Details

Description: When a dose is administered in 5.16.12.3, the funding source is not displayed on the Vaccine Details page. This is a display issue.

State Identified: Found by STC

Versions: IWeb v5.16.12.3

Setup:

1. Facility has a public lot with an NDC number.

Steps to Test:

1. Log in as a Registry Client user.
2. Select the above facility.
3. Select a patient.
4. Go to **Vaccination > View / Add** and administer a dose with the above lot.
5. Notice the funding source field displays PUB at first.
6. Save.
7. Click on the dose.
8. Review the funding source field.

Expected Results: The funding source should be displayed.

Actual Results: The funding source is not displayed.
