Key	Summary	Affects Client	Description
			<ul style="list-style-type: none"> Have an Organization/Facility with 'Allow Provider Agreements' enabled. <p>Steps to Test:</p> <ol style="list-style-type: none"> Login to IWeb as a Registry Client user. Select the above Organization/Facility. Go to Orders/Transfers > Select Provider Agreement. Click on Add. Enter all the required details and Submit the Provider Agreement. Click on PDF-Full corresponding to the above submitted Provider Agreement. Verify the Ohio State Board of Pharmacy Information is updated in the PDF.
CONSORT-5006	Special Considerations	MT	<p>Fixed the issue where 'History of Varicella Noted' and 'Laboratory Immunity to Varicella Noted' labels are displayed on every MT Immunization Record Report.</p> <p>Summary after the Fix:</p> <ul style="list-style-type: none"> If no Special Consideration is added = Labels are not displayed. If Special Considerations are added without 'Date Documented' or 'Disease Date' = Labels are displayed without a date. If Special Considerations are added along with a 'Disease Date' = Labels are displayed with a Disease Date. If Special Considerations are added without adding a 'Disease Date' and with adding a 'Date Documented' date = Labels are displayed with the 'Date Documented'. If Special Considerations are added along with adding both the 'Disease Date' and 'Date Documented' date = Labels are displayed with 'Disease Date'. <p>Setup:</p> <ul style="list-style-type: none"> In Administration > Properties > Scheduled Reports, Have IWeb Address configured correct. Have a Patient with no History of Varicella and Immunity to Varicella. <p>Steps to Test:</p> <ol style="list-style-type: none"> Login as a Registry Client user. Select an Organization/ Facility that the above Patient belongs to. Search for and Select the above Patient.

Key	Summary	Affects Client	Description
			<ol style="list-style-type: none"> 4. Go to Vaccination > View / Add. 5. Click on Patient Specific Reports. 6. Select Complete Immunization Record. 7. Notice 'History of Varicella Noted' & 'Laboratory Immunity to Varicella Noted' labels are not displayed in the report. 8. Go to Vaccination > View / Add page. 9. Click on Special Considerations. 10. Add a Contraindication 'Laboratory evidence of immunity' and 'History of Varicella' for Varicella vaccine without a Date Documented or Disease Date. 11. Repeat Steps 4 to 6. 12. Notice a label is displayed as 'Varicella- Laboratory Evidence of Immunity Noted' and 'History of Varicella Noted'. 13. Notice a date is not displayed corresponding to the labels. 14. Repeat the tests with adding only 'Date Documented' for both the contraindications as above. 15. Notice a label is displayed as 'Varicella- Laboratory Evidence of Immunity Noted' and 'History of Varicella Noted'. 16. Notice Documented date added in Step 14 is displayed corresponding to the labels. 17. Repeat the tests with adding Only 'Disease Date' for both the contraindications as above. 18. Notice a label is displayed as 'Varicella- Laboratory Evidence of Immunity Noted' and 'History of Varicella Noted'. 19. Notice Disease date added in Step 17 is displayed corresponding to the labels. 20. Repeat the tests with adding both the 'Disease Date' and 'Documented Date' for the contraindications as above. 21. Notice a label is displayed as 'Varicella- Laboratory Evidence of Immunity Noted' and 'History of Varicella Noted'. 22. Notice Disease date added in Step 20 is displayed corresponding to the labels.

Fixed Bug List

The following table lists the detailed information about each of the bugs fixed in this version. To export the testing steps to Excel, see the [Export](#) section below.

Key	Summary	Affects Client	Description
CONSORT-4985	Approve Orders	All	<p>Fixed issue where an approver could manually modify a URL and bypass having to approve orders in manual review one order at a time. Previously, if the url was modified to include a list of orders in manual review and in Ready for State Approval, both sets of orders would be included in the Vtrcks order file and behave like they were reviewed and approved. Now, IWeb only process orders in Ready for State Approval. The orders that are in manual review stay in manual review.</p> <p>Steps to Test:</p> <ol style="list-style-type: none"> 1. Login to IWeb as a Registry Client user. 2. Select a facility that will have orders land in manual review (Ready for Approval). 3. Try creating a new facility with Default physical inventory on order and Default doses used last month on order enabled on the Facility Maintenance page. Also, change the facility's addresses. 4. Go to Orders / Search Add and submit a number of orders. 5. Select a facility that will have orders land in Ready for State Approval. 6. This is done by making sure no exceptions will be taken. Try using an existing facility with Default physical inventory on order and Default doses used last month on order disabled. Trying using facility where the address has not changed. Try making Administration > Accountability reason codes inactive. 7. Go to Orders / Search Add and submit a number of orders. 8. Select the State Approver. 9. Go to Orders > Approve Orders. 10. Notice there are a number of orders in both Reviewed for Approval and Ready for State Approval. 11. Note or screen capture the order numbers in both sections. 12. Insert and then update a URL like the one below. Update bladeiwebms.stchome.com with the correct server name. Update the 927,926, 925 with the order numbers. 13. Press Enter. 14. Notice the zip file opens as if the orders were approved and sent to Vtrcks. 15. Open the orders file. 16. Notice the order file only contains the orders that were in Ready for State Approval. 17. Go back to Orders > Approve Orders page. 18. Notice the orders in manual review are still on the page. 19. Notice the orders that were in Ready for State Approval have cleared the page. 20. Select the facility.

Key	Summary	Affects Client	Description
			<ol style="list-style-type: none"> 21. Go to Orders > Create / View Orders. 22. Notice the orders that are in manual review still have a status of In Manual Review and cannot be received. 23. Notice the orders that were in Ready for State Approval have a status of Approved and can be received. 24. Go to Orders > Search History. 25. Search for the orders. 26. Notice the orders that are in manual review have a status of In Manual Review. 27. Notice the orders that were in Ready for State Approval have a status of Approved. 28. Select the State Approver. 29. Go to Orders > Search History. 30. Select an order that has been approved. 31. Notice the Recreate Vtrcks button is on the page. 32. Go to Orders > Approve Orders. 33. Go through the normal process of reviewing an order in manual review one order at a time, approving the order, sending the order to Vtrcks, and receiving the order. 34. Notice the order approval process works as expected. Orders in manual review must be reviewed one at a time, can be approved, can be sent to Vtrcks, and can be received.
CONSORT-5010	Vaccination View/Add	MT	<p>Made changes so providers can edit the vaccines successfully.</p> <p>Setup:</p> <ul style="list-style-type: none"> • Have a Patient belonging to an Organization/Facility. • Have a vaccine administered for the above patient with Funding source and Lot details. <p>Steps to Test:</p> <ol style="list-style-type: none"> 1. Login to IWeb as a Registry Client user. 2. Select the Organization/Facility that the above Patient belongs to. 3. Go to Vaccination View/Add. 4. Click on the Vaccine administered as mentioned above. 5. Click on Edit Record. 6. Update the VFC Eligibility if needed and Click on Continue. 7. Edit any details as required and Click on Submit Changes. 8. Notice the Vaccination Detail page is submitted successfully.
CONSORT-5011	Montana Complete Immunization Report	MT	<p>Made changes to display the correct dose number for H1N1 vaccine in Montana Complete Immunization Report.</p> <p>Setup:</p> <ul style="list-style-type: none"> • Have a Patient belonging to an

Key	Summary	Affects Client	Description
			<p>Organization/Facility.</p> <ul style="list-style-type: none"> Have a vaccine administered to the above patient.(Ex:Novel H1N1,Injectable, 36+ Mos) <p>Steps to Test:</p> <ol style="list-style-type: none"> Login as a Registry Client user. Select an Organization/Facility. Search for and Select the above patient. Go to Vaccination > View Add. Administer a historical dose of Novel H1N1, Injectable, 36+ Mos. Expand Patient Specific Reports and Select Complete Immunization Report. Notice that dose number for rabies vaccine administered above is displayed as 1.
CONSORT-5012	Montana Complete Immunization Report	MT	<p>Made changes to display the column names on all the pages of Complete Immunization Report.</p> <p>Setup:</p> <ul style="list-style-type: none"> Have a Patient created under an Organization/Facility. Have vaccines administered for the above patient so that Complete Immunization Report has two pages. <p>Steps to Test:</p> <ol style="list-style-type: none"> Login as a Registry Client user. Select the above Organization/Facility. Search for and Select the above Patient. Go to Patient Specific Reports > Complete Immunization Report. Scroll to the second page of the report. Notice the report headers and column names are displayed.

Export to Excel

Follow these steps to export the testing steps to an Excel spreadsheet:

- Click this link and log in to Jira if required:
<https://stchome.atlassian.net/issues/?filter=52725>.
- Click the **Change View** icon and select **List View**.
- Click the **Export** icon (it looks like a download icon) and export as needed.

Product Documentation

Product documentation is located on the STC Documentation Portal:
<https://documentation.stchome.com/>.

The following documents are available on the Documentation Portal for this release of IWeb:

- IWeb (v. July 2018) User Guide (no changes for this version)
- IWeb (v. March 2018) Quick Reference Guides (no changes for this version)

Database Release Notes

The following briefly addresses changes in the database for users with read-only access:

- WA Only; Removed Personal and Religious exemptions for Measles, Mumps and Rubella vaccines (single antigens and combo vaccines)
- Gave ability for Facility View users to access Oral Health in WV
