New Features/Improvements

The following are new features, functionalities or enhancements in this version of IWeb.

Key	Summary	Affects Client	Description
	Deduplication	All	Improved indexing performance was implemented to help prevent database connection locks while running deduplication.

Fixed Bug List

The following table lists the detailed information about each of the bugs fixed in this version.

Key	Summary	Affects Client	Description & Impact
HDS-1856	Facility Merge	All	Previously, changes made during a facility merge would not be reverted if the facility merge failed. Now, in the event of a facility merge failure, any changes made will revert to their previous state.
HDS-1940	Dedup	IN	Patient records were previously not being processed when multiple deduplication sessions were running simultaneously. With this fix, records will appropriately process even under high-volume deduplication sessions.
