New Features/Improvements

The following are new features, functionalities, or enhancements in this version of IWeb.

| Key | Summary | Affects Client | Description |
|-----|-----------------------|----------------|---|
| | Provider Registration | All | <p>A State user is able to display the questionnaires of a selected request, make edits, and change the status of the request at the end of the review. A back button and next button have been added for navigation. If the State user navigates away while editing, a pop-up will display <i>"The changes made in the form will be saved"</i></p> <p>The State user is able to change the status of the request at the end of the review. The following status are available:</p> <ul style="list-style-type: none"> • Pending Review (Default) • Valid • Invalid • Evaluated <p>The page also has a comments section and a save button.</p> <p>The State user is able to see a table of Provider Enrollment requests. The table is updated and links to certain functionality based on status. The State user is able to see the following statuses:</p> <ul style="list-style-type: none"> • Pending review • Valid • Invalid • Evaluated <p>The State User can also see if an Organization and/or Facility has been created. The State user is able to see links to:</p> <ul style="list-style-type: none"> • Create organization • Create facility • Create users <p>On the <i>Provider Registration Confirmation</i> page there is now the ability to enter an email address to receive an email with the registration confirmation code.</p> <p>Under <i>Properties > Vaccine Management</i> a user is able to set up the subject line and email message text for Provider Registration Confirmation Email.</p> |

| Key | Summary | Affects Client | Description |
|--|---------------------------|----------------|--|
| | | | Under the State Approver Organization, users are able to see the Enrollment option in the left menu and if the state user permission is changed to a facility user permission, then the enrollment option is not displayed. |
| | Properties | All | A new expandable section was added on the <i>Properties</i> page for Logi-Composer properties. This information was previously stored under <i>Scheduled Reports</i> . |
| | Reminder Recall | All | A modification was made to <i>Reminder Recall Export</i> to only include applicable vaccines based on reminder recall defined search criteria. Previously, the export included all vaccines that were due. |
| HDS-3129 HDS-3506 | Reports | All | Added the ability to generate reports using PIN or VFC PIN in the Report Module for the following: <ul style="list-style-type: none"> • Provider Contact • Lot Usage and Recall • Inventory Transaction • Patient Detail • Vaccination Totals • Lot Number Summary • Daily Patient Immunization This includes updating report parameters, output, and export (if applicable) to use both VFC PIN and PIN for reporting needs. |
| HDS-4027 | School Nurse Module | All | The Covid Vaccine Group was added to School Nurse <i>Define Report Series</i> page. |
| | Immunization Certificate | WA | Added the COVID-19 vaccine to the WA CIS Form. Updated the layout of the CIS Action Report to separate Invalid Doses from the Required Doses table. |
| | Immunization Certificates | MS | Added MIIX logo and watermark to all Mississippi Immunization Certificates. |
| | School Nurse Module | DC | School Nurse Module functionality for Washington DC was enabled. |
| | School Reports | TN | The new option to pick Kindergarten or 7 th Grade is available on the District Summary report. This is found under <i>Reports > School Reports > Survey</i> . |

Fixed Bug List

IWeb 5. 46. 0

The following table lists the detailed information about each of the bugs fixed in this version.

| Key | Summary | Affects Client | Description & Impact |
|---|--------------------------|----------------|--|
| | Security | All | Resolved multiple security issues pertaining by removing support for the PhinmsHL7Server. The open source jar file used for this feature had multiple security vulnerabilities. |
| | DTT | All | Fixed the issue pertaining to vaccination records becoming stuck in deduplication when a DTT File was imported with an invalid Vaccine Funding Source mapping code. |
| HDS-930 HDS-2473 HDS-1183 | School Nurse Module | All | Fixed an issue pertaining to the addition of patient in the School Nurse Module with a school nurse user account linked to a Blocked Ownership organization, which created an error. The issue has been resolved and patients can be added as expected. |
| HDS-2003 HDS-4390 HDS-119 | PHC Hub | All | <p>Sporadically on the PHC Hub <i>Message Search</i> page a Provider who had active system activity could not be selected. Now an active Provider can be selected on the <i>Message Search</i> page.</p> <p>Previously when a vaccination refusal was submitted via HL7, PHC Hub was validating the Facility ID field. Now, when a refusal message is submitted via HL7, the response message removes validation of the Facility ID.</p> |
| | Patient Address | All | Corrected an issue affecting users from <i>Automatic Ownership Blocked organizations</i> that were allowed to save a patient without an address when an address was required. |
| HDS-4087 | Immunization Certificate | WA | Previously if a patient only had a COVID-19 vaccine, an error occurred when trying to print the WA CIS Form. Now, the application allows you to print the CIS Form when the patient has COVID-19 vaccine(s) only. |

Product Documentation

Product documentation is located on the STC Documentation Portal: <https://documentation.stchome.com/>. The following documents are available on the Documentation Portal for this release of IWeb:

- IWeb (v. July 2018) User Guide (no changes for this version)
