## Introduction

This release applies new CVX and CPT vaccine codes only. The new vaccine codes are not included in forecasting logic.

## Apply the Release

Apply the release by executing either the included `forecast.bat` or `forecast.sh` file. It is not necessary to verify which forecast releases have been previously applied; however, to ensure that the system is up to date with new CVX codes, prior releases should have already been applied. Log files, which are created in the same folder from where the release is executed, can be reviewed for errors. To determine the current version of ImmuCast, execute this statement from SQLPlus:

```
SQL> select max(version) from h33_forecast_version where insert_stamp =  
(select max(insert_stamp) from h33_forecast_version);
```

If the version number returned is not 5.23.0, you may download and apply the previous releases prior to applying this release. Log files are created in the folder from where the release is executed and can be reviewed for errors.

### For ImmuCast (Stand-Alone Forecaster)

After applying the release, restart Tomcat to enable and cache any new vaccine codes into memory.

### For IWeb Only

Since this release does not include forecasting changes, no reforecasting of patients is needed.

## Patient Groups Affected by this Release (v5.23.1)

- None

## New Features/Improvements

The following are new features, functionalities or enhancements in this version of ImmuCast.

Ticket		Description		
	CVX Code	CPT Code	CDC Short Description	CDC Full Vaccine Name
	203	90619	meningococcal polysaccharide (groups A, C, Y, W-135) TT conjugate	meningococcal polysaccharide (groups A, C, Y, W-135) tetanus toxoid conjugate vaccine .5mL dose, preservative free
	205	90694	Influenza vaccine, quadrivalent, adjuvanted	influenza, seasonal vaccine, quadrivalent, adjuvanted, .5mL dose, preservative free
	206	N/A	Smallpox monkeypox vaccine (National Stockpile)	smallpox monkeypox vaccine, live attenuated, preservative free (National Stockpile)

## Bug Fix Summary

	<p>Vaccine description for CVX 197 has been updated to match the CDC CVX Short Description.</p> <p>Changed To: influenza, high-dose, quadrivalent            From: influenza, high-dose seasonal, quadrivalent, preservative free</p>
