

Add/Edit Activities

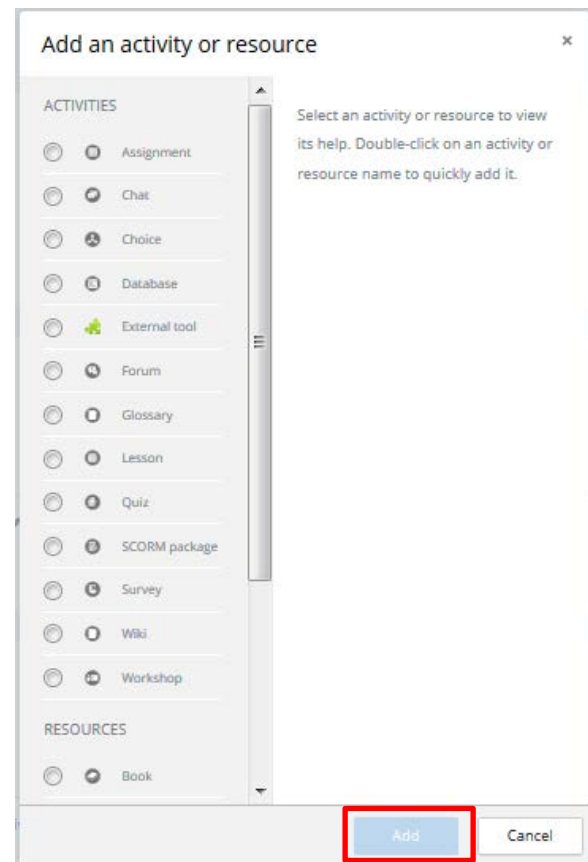

Activities can be added to STC|U courses to allow students to interact with each other and with the teacher.

Standard STC|U Activities

- **Assignment:** Students can submit assignments for grading in text format or by file upload
- **Chat:** Students can enter and use a chat room for real-time discussions
- **Choice:** Teachers can post polls to obtain feedback from students
- **Database:** Teachers can create and maintain a database of records for a course
- **External Tool:** Teachers can implement LTI-compliant learning activities from other resources
- **Forum:** Students and teachers can engage in discussions by posting comments to common threads
- **Glossary:** Teachers can create and maintain a list of definitions, similar to a dictionary
- **Lesson:** Teachers can create lessons with content and questions that can be adaptive or continuous
- **Quiz:** Teachers can design and build quizzes consisting of a large variety of question types
- **SCORM Package:** SCORM 1.2 courses can be integrated into an activity, with SCORM-specific reports
- **Survey:** Teachers can collect information from students using pre-defined questions including Critical Incidents, COLLES, and ATTLS questions
- **Wiki:** Teachers can create a collection of collaboratively authored web documents that any student in the course can contribute to
- **Workshop:** Teachers can set up a peer assessment tool where students can grade other students' submissions

Add an Activity

1. Log in to STC|U.
2. From the **My Courses** menu, select the course to which you would like to add an activity.
3. Click on the gear button  and select **Turn Editing On**.
4. Click the **Add an activity or resource** button  under the topic to which you want to add the activity.
5. On the Add an Activity or Resource window that opens, select the radio button next to the activity you want to add, then click the **Add** button.

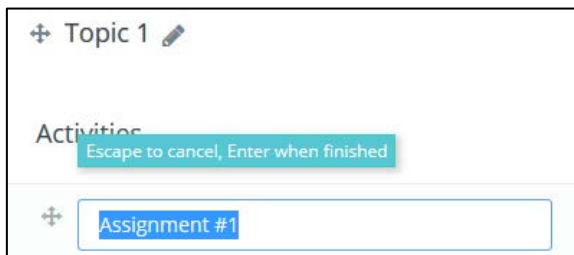

- On the next page that opens, configure the settings for the specific type of activity you want to add.
- Once all of the settings have been configured and the activity has been set up, click **Save and Return to Course**.

Edit an Activity

- To edit the name of an activity, click the pencil icon  next to the name, edit the activity name, and then press **Enter** on the keyboard.

- To edit an activity's settings, click the Edit button  and make the necessary changes.

- Edit Settings:** Edit the activity's settings
- Hide:** Activity can be hidden until the teacher is ready to show it to the enrolled users
- Duplicate:** Copy the assignment with the same settings and name
- Delete:** Delete the activity from the course.
