Fixed Bug Details

The following table lists the detailed information about each of the bugs fixed in this version.

Key	Summary	Impact & Description
HDS-2565 HDS-3865	Returns/Wastage	Previously, the VTrckS Return/Wastage files were pulling email address from the last contact person on the list regardless of whether the person was marked as <i>Primary</i> or not. Now, the files will pull the prioritized contact marked as <i>Primary Vaccine Coordinator</i> when available, and only use <i>Backup Vaccine Coordinator</i> when the <i>Primary</i> doesn't exist.
HDS-134	Accountability	Previously all orders would be placed in compliance review even if they were not out of compliance. Now only orders that are out of compliance will be sent to compliance review.
