New Features

The following new features are included in this release.

DQA:

- [CONSORT-4698](): Addition of "0" as an option for state expectation rate for issue resolutions that are "unwanted," such as SSN or Address Street 2. **NOTE:** After changing an expectation rate, the user must log out and back in to have the new value reflected in the reports. This is a temporary workaround until a permanent fix can be implemented. New values are applied to past and future messages reporting

Onboarding:

- Addition of due dates and associated search/filter functionality for tasks and notes on the onboarding panel
- Addition of multi-select functionality to allow the user to immediately move multiple providers to a new onboarding stage

Provider List:

- All columns on the Provider List (except the onboarding stage) are now sortable

Transaction Log Viewer:

- The Transaction Log Viewer now relies on the STC|iQ search bar, which provides facility-level security, data availability, and a look and feel consistent with the rest of the application.

Fixed Bug List

The following bugs were fixed in this version. For detailed information, see the [Fixed Bug Details]() section below.

General Area	Summary
[CONSORT-4696]()	DQA Print Formatting
[CONSORT-4697]()	Provider List search
[CONSORT-4698]()	DQA: Setting state expectation at 0
[CONSORT-4699]()	Onboarding Notes: Clearing note functionality

Known Issues

The following are known issues in this release:

- After changing an expectation rate, the user must log out and back in again before they can see the new value reflected in the DQA reports. This is a temporary workaround until a permanent fix can be implemented. See CONSORT-4698.

Fixed Bug Details

Key	Summary	Affects Client	Description
CONSORT-4696	DQA Print Formatting	All	Issue: All data columns within DQA are not visible when printed. **Steps to Reproduce:** 1. Select Organization and Facility. 2. Select the Year and Month. 3. Select the field for the HL7 Message Location. 4. Click **Search**. 5. Click the **Print** icon. 6. Observe the tooltip asking the user to confirm the landscape setting.
CONSORT-4697	Provider List search	All	Expected Results: The Provider List should allow searches by name or address. **Steps to Reproduce:** 1. Log in to STC|iQ. 2. Navigation to Provider > Provider List. 3. On the Pre-Discovery tab, click **Add Provider**. 4. Enter Address Lines 1, 2 or City into the search box and verify that the correct provider is displayed in the list.
CONSORT-4698	DQA: Setting state expectation at 0	All	Expected Results: For issue resolutions that are 'unwanted' (such as SSN or Address Street 2), the state should be able to enter '0' as the expectation rate and see results reflected in reports accordingly. Newly saved value will be reflected in DQA reports. **Steps to Reproduce:** 1. Log in to WA UAT iQ as a State User 2. Select 'Admin' and click on DQA 3. Click on pencil icon under 'Edit 'column for selected HL7 Data Element 4. Enter State Expectation Rate of '0'

Key	Summary	Affects Client	Description
			5. Click Submit
			6. Log out and back in
			7. Navigate to DQA for provider and select filter according to time frame and data element.
			Notes to User:
			• After changing an expectation rate, you will need to log out and back in to have the new value reflected in the reports. This is a temporary workaround until a permanent fix can be implemented.
			• New values are applied to past and future messages reporting.
CONSORT-4699	Onboarding Notes: Clearing note functionality	All	Description: Text previously entered into the note field should not be available after canceling.
			Steps to Reproduce:
			1. Log in to STC|iQ and enter a provider in the search box.
			2. Click on the **Onboarding Panel** icon.
			3. Click on the Notes tab.
			4. Click the **Add** icon.
			5. On the Description line, add a note.
			6. Click **Cancel**.
			7. Click the **Add** icon.
			Expected Results: The note description is blank.
